IRRIGATION OPERATIONS IN BENGAL FOR RABI, 1887-88.

Dated Calcutta, the 18th September 1888.

RESOLUTION.

READ—

Statements I, II, III.

Observations.—The area irrigated during the *rabi* season of 1887-88 was 61,653 acres against 49,381 acres in 1886-87, showing an increase of 24·8 per cent.

2. In Midnapore no canal irrigation of *rabi* takes place owing to the insufficiency of the water supply during the *rabi* season. In this district, as in Hooghly, Cuttack, and Balasore, the area under *rabi* cultivation is insignificant.

3. The increase noted in paragraph 1 occurs almost entirely in the districts irrigated by the Sone canals, the return from Gya alone showing a trifling decrease. The Sarun canals also show an improvement. These better results were due to the short rainfall in the four Behar districts where irrigation takes place.

4. In the table below a comparison by canals is made of the *rabi* areas irrigated during the seasons of 1886-87 and 1887-88:—

Order.—Ordered that a copy of this Resolution with copy of statements Nos. I, II, and III be forwarded to the Government of India, in the Public Works Department, for information. Also that copies be forwarded to the Commissioners of the Orissa, Burdwan, and Patna Divisions; the Collectors of Cuttack, Midnapore, Patna, Shahabad, Gya, and Sarun; the Superintending Engineers of the Orissa, South-Western, and Sone Circles; and the Examiner of Public Works Accounts, Bengal, for information.

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last ten years. The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past 21 stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean for 6 days.

CALCUTTA, *the 18th September* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 14TH OF SEPTEMBER 1888.

TOWARDS the close of the preceding week the meteorological conditions of the Bay and the province became of ordinary light south-west monsoon character, the centre of lowest pressure being rapidly transferred from Orissa to the west of Chutia Nagpur. With the beginning of the present week the barometric pressure began to fall slightly at the western stations, but much more rapidly in East and North Bengal, and along the east coast of the Bay, more especially at the southern stations of Burmah, a fall of nearly a tenth of an inch being reported from Tavoy. With these changes pressure became very uniform over the Bay, and to a great extent over Bengal also. The winds continued light and generally southerly. The reports received on Monday showed that the fall of pressure on the Burmah coast had continued, but not with such rapidity as on the previous day, while there was an increase of pressure in the north of the Bay, causing pressure to become still more uniform.

The wind directions assumed a suspicious appearance which, with the continued fall of pressure on the Burmah coast, pointed to the possible commencement of a depression off the South Burmah coast, though it was not sufficiently intense to give other indications

During Monday changes of the same nature continued, pressure diminishing on the east and increasing on the west coast, and on the Tuesday morning pressure was distinctly low over the south of Burmah. The winds retained their ordinary monsoon directions, except on the Burmah coast, where the slight indraught to a centre near Tavoy still continued. During Tuesday the relative circumstances were still of the nature of the preceding days, the reports on Wednesday morning showing only that a slight fall had taken place over the whole of the Bay, and Chittagong became the region of highest pressure. The weather was then fine over South Bengal and the Bay. The reports received on Thursday morning, the 13th, showed that rapid changes had begun. The fall of the barometer on the Burmah coast, which had been continuous, but usually slow, from the previous Saturday, became much more rapid, a fall of nearly three-twentieths of an inch being reported from Tavoy, Moulmein, and Rangoon. The set of the winds to a centre between the Andamans and the main land, or perhaps to the east of Tavoy or in the Gulf of Siam, continued, though the intensity remained slight, as it had been throughout the previous four days. The development of the storm, which had been going on steadily from Saturday, the first day of the present week, now became much more rapid, and during the twenty-four hours between 8 A M. on Thursday and 8 A M. on Friday very rapid changes appeared.

The storm centre, which apparently had been stationary or moving slowly, then started into rapid motion, but the north-westerly direction it was moving in carried it over the Bassein hills, where its motion was for a time retarded and its further development was partly prevented. Its intensity was, however, sufficient to enable it to surmount the hills, and shortly after 8 A.M. on Friday the centre left the land and began crossing the Bay in a west-north-westerly direction. The barometer fell with extreme rapidity at Diamond Island when the storm centre was passing near that station, a fall of a quarter of an inch being reported. At 8 A M. on Friday falls were also reported from all stations except those on the South Burmah coast, where pressure was rising rapidly. The storm centre thus appears to have passed to the west of Rangoon or near Bassein on the early morning of the 14th instant. During the progress of the storm the ports in Burmah were warned of the advance and probable path of the storm. Heavy rain fell in connection with the storm, Diamond Island receiving nearly four inches from the 13th to the 14th. Moulmein also reported a gale of wind, and at Rangoon the wind velocity was 34 miles an hour at 8 A.M. on the 14th. Indraught towards the storm area was going on all round the Bay, the general wind direction being north-westerly. On leaving the coast the storm again began to move with great rapidity, probably crossing half way to the Orissa coast during the following 24 hours.

Pressure—At the commencement of the week was at all stations considerably above the normal, at only a few the variation being less than a tenth of an inch. During Saturday, at nearly all stations, small falls took place; but during Sunday and Monday the barometer again rose, so that the pressures reported on Monday, the 11th, showed a variation from the mean greater than it was at the beginning of the week. The reduced pressures, however, showed great uniformity. A fall set in on Tuesday and continued on Wednesday, though the pressure remained above the normal. The rapid fall which took place during Thursday brought the pressure recorded on Friday morning below the normal, the fall at most stations being for the three days about three-twentieths of an inch The Behar stations only still reported pressure slightly in excess. As previously described, throughout the week the barometer was falling on the south coast of Burmah, slowly in the early part of the week, rapidly afterwards in consequence of the formation of the cyclonic storm, and at the end of the week the existence of the storm governed the pressure distribution of the whole of Bengal and of the Bay. For the whole of Bengal the mean pressure for the week has been 0 063 inch in excess of the normal, while in Assam the excess has been 0 068 inch.

Temperature—During the week has varied very slightly from the normal. In the early part, small changes were reported, and a slight defect at most of the stations. In Orissa, there was an excess of about 2°, and in Behar and North Bengal a defect of about 2°. In South-West Bengal this excess continued almost to the end of the week, but from Tuesday, the 11th, temperature rose, and became slightly in excess of the normal at the other stations till Thursday, when again a small defect was reported. Towards the end of the week, the temperature kept varying by very small amounts above and below the normal, at the majority of stations. For the whole week the mean temperature of the province has been only a tenth of a degree below the normal, while in Assam the defect has been equal to half a degree.

Winds—At the head of the Bay were decidedly strong during the first three days of the week, but at most of the other stations they were light and variable, though with a south or south-easterly tendency. On the 10th, the strong winds at the head of the Bay decidedly fell off. Irregular winds set in on the 11th, with a northerly tendency, over the east and south of the province. Afterwards, though the winds remained light, the direction became more generally northerly till the close of the week.

Rainfall.—With the partial cessation of the monsoon current blowing over the province, there has been a slight, but distinct, break of the rains in certain districts, and thus rainfall has been in defect in all districts except in North Behar. In Orissa and Chutia Nagpur the defect from the normal has been between one-and-a-half and two inches. Orissa has indeed only received a few local showers about the middle of the week. The rainfall over the province has also been very irregular; very heavy falls of over five inches were reported on Sunday from Mymensingh and Dhubri, but the amounts and the number of showers fell off very rapidly, more particularly in the western districts, and rain became almost completely absent from Orissa and South-West Bengal from the middle to the end of the week. In the middle of the week, local showers were falling in most districts, but latterly a decided break of rains set in, and the last two or three days were practically rainless. Falls of about two to two-and-a-half inches during the week have been reported in East and North Bengal and Behar, and falls of from one to two inches only in Orissa, South-West Bengal and Chutia Nagpur. The only district where the fall has been nearly normal is Behar, considerable defects being reported in South-West, East and North Bengal, and very large defects in Orissa and Chutia Nagpur.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 14th of September 1888 :—

MEMORANDUM.

THE leading facts in connection with the mortuary statistics of the districts in Bengal for the month of June 1888 are the following :—

1. That the deaths of 105,463 persons were registered out of a population of 66 163,884 in these districts, or at the rate of 19·08 per 1,000 per annum, against 21·12 per 1,000 in the preceding month, and 20·40 per 1,000 in the corresponding month of 1887, indicating, as compared with both the periods, a falling off in the number of deaths registered.

2. That the highest death-rates were reported to have occurred in the following districts :—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille*
Darjiling	46·68	Patna ...	21 96

Hazaribagh	28·08	Durbhanga ...	21 12
Julpaiguri	26 76		

3. That the mortality from the specific diseases, mentioned in the table appended below, indicates that cholera prevailed with considerably less fatality during the month under notice as compared with the corresponding month of the preceding year, and that the fatal results from the rest of the diseases exhibited only fractional differences, excepting bowel-complaints and injury, the casualties from which maintained the same ratio :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

DISTRICT ROAD FUND.

NOTIFICATION—No. 331.

The 25th September 1888.

THE subjoined annual accounts and report of the Road Cess Committee of the district of the Sonthal Pergunnahs for the year 1887-88, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

W. CONNAN,

Offg. Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 59P.W., dated Dumka, the 11th July 1888.

From—R. CARSTAIRS, Esq., Deputy Commissioner, Sonthal Pergunnahs,
To—The Commissioner of the Bhagulpore Division and Sonthal Pergunnahs.

I HAVE the honour to submit my annual report on the working of road works in Sonthalia for the year ending 31st March last.

2. Sonthal Pergunnahs is a non-cess district. The Local Self-Government Act has not been brought in force here, and this accounts for there being no District Board. Its power, however, in respect to district works is exercised by myself.

3. Original works done during the year are as follow:—

(*a*) Construction of a bund across the Ranibahal stream, 86th mile, road No. 1, Bhagulpore and Suri road, and provision of escape bridges and channels at both ends.

(*b*) Construction of a stone causeway about 150 feet long across the Bilkee stream, 89th mile, Bhagulpore and Suri road.

(*c*) Bunding up Massoujore stream, 83rd mile, Bhagulpore and Suri Road, and providing escape bridges and channels at both ends.

(*d*) Construction of a bund across the Huripur nala, 28th mile, road No. 2, Dumka and Rampur Hât road, comparatively a more considerable stream, with escape bridges and channels at both ends.

(*e*) Dismantling a timber bridge over the Jumnajore stream, 1st mile, Deoghur to Saruth road, superstructure thereof being replaced by four rubble arches of 15 feet span, and doing masonry parapets and other requisites.

4. We have been able hitherto to do a few original works every year, but with yearly increase to length of our roads, this is no longer possible. We want a series of masonry bridges. We want many new roads A decent maintenance of our roads, nearly 700 miles, takes up almost all our limited money, and we are at a loss what to do in respect of many urgent works of construction and improvement. Economy we have effected to its utmost stretch, and no more is possible We could do more with an income of Rs. 50,000. It is to be borne in mind that Sonthalia is one of the largest districts in Bengal, and our income of Rs. 34,000 a year is not enough, especially as increasing of maintenance traffic adds to the cost.

5. *Repair Works.*—We have been able to keep somehow in fairly good repairs almost all the roads borne in the district list. But the work is rough and necessarily unequal, depending on the soil. In the alluvial land to the east, it is bad. During the year the roads from Dumka to Pakour, Dumka to Jamtara *vid* Kundahit, and Dumka to Madhupur *vid* Saruth, have been partially improved. These, however, want much more done to them before they are passable all the year round The three village roads in the district have been kept in fairly good condition. The zemindar of Belpatta, as before, kept the road to Kumirabad in order.

6. Staging and inspection bungalows underwent partial repairs, which was all we could afford. They require many improvements, but funds always fail.

7. Arboriculture has been as before carefully attended to. Our road-side plants which we began regularly planting in some eight years ago, now amount to about 28 000, mostly mango. May of them flowered during the year, and some bore fruits. We shall not, I fear, be able to extend further our plantations on account of shortness of funds.

8. The work of the staff has been fair, except that of the Sub-Overseer of Borio, which was not good. The District Engineer, Baboo A. K. Mittra, has, as before, been energetic and capable. I think, however, he has been tempted to stretch economy too far and to undertake more than he could perform.

No. 83P.W., dated Bhagulpore, the 3rd August 1888.

From—J. BEAMES, Esq., Commissioner of the Bhagulpore Division and Sonthal Pergunnahs,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts and report on the road works of the Sonthal Pergunnahs for the year ending 31st March 1888.

2. The Sonthal Pergunnahs is a non-cess district, and the Local Self-Government Act is not in force there.

3. The original works executed during the year are enumerated in paragraph 3 of the Deputy Commissioner's report. They consist chiefly of projects for improving the means of crossing small streams. In three cases this has been effected by throwing a bund across the stream, and this, besides providing a road, also retains a useful supply of water for irrigation or other purposes. The expenditure on original works was Rs. 4,491, or 10 per cent. of the total expenditure of the year.

4. The repairs executed are reported to have kept the roads in fairly good order, and the roads which I personally inspected on my tour were very good indeed. The aggregate length of roads in the district is about 700 miles, and of these 565 miles were under repair. The expenditure was Rs 23,500, or 52·6 per cent. of the total expenditure of the year. The average cost per mile of road repaired was Rs. 41·6. This is exclusive of repairs executed from the Government Estates Improvement Fund.

5. The expenditure on Public Works, exclusive of establishment, was Rs. 30,644, and the cost of establishment was Rs. 6,515, or 21·2 per cent of the outlay on works.

6. The amounts outstanding in the suspense account are in some cases exceptionally high, and steps are being taken to get them reduced if possible.

7. The estimates for the following works will be submitted to Government as soon as received:—

(*a*) For constructing a bund across the Massaujore stream.
(*b*) For constructing a bund across the Ranibahal stream.
(*c*) For constructing a bund across the Huripur nala.

8. The Deputy Commissioner complains of the inefficieney of the funds at his disposal to meet the wants of the district, and it may be observed that if the outlay on original works be any guide as to the improvement of the district, very little progress in this direction was possible during the year. At the same time so much of the district consists of uplands with a surface of rock or gravel, that communication is often comparatively easy where no regular roads have been made. The district is therefore for practical purposes better off than it appears on paper.

84. The Commissioners may, at any time between sunrise and sunset, enter and inspect any stable or coach-house or any place wherein they may have reason to believe that there is any carriage or animal liable to taxation;

85. If any person within one month establishes his claim to the possession of such carriage or animal, the Commissioners shall order it to be delivered to him on payment of the tax due, together with such costs as the Commissioners may have reasonably incurred in taking possession of, and keeping, the same. If no person within such period satisfies the Commissioners that he is entitled to such carriage or animal, it may be sold for the recovery of the tax and costs aforesaid; and if any person whose carriage or animal has been sold establishes his claim to the net proceeds of such sale, the Commissioners shall order the proceeds of such sale, less the tax due and all costs incurred in consequence of the seizure and sale, to be delivered to such person.

List of persons licensed to be entered in a book.

86. The Commissioners shall, from time to time, cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons to whom during the then current period of six months a license has been granted under section seventy-nine and of the carriages and animals in respect of which the same has been granted.

And such fine shall, when levied, be taken in full satisfaction of the demand on account of such license.

Commissioners may require list of persons in any house.

91. The Commissioners may, by a notice in writing, require the occupier of any house to forward to them within seven days a list, signed by him, of the names of all male persons residing or carrying on any trade, profession, or calling, in such house, and of their respective professions, trades, and occupations.

95. Whoever keeps or is in possession of a cart not duly registered as required by the last preceding section shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix the registration number required by the last preceding section, shall be liable to a fine not exceeding Rs. 5.

Fee for registration.

96. The registration of carts under section ninety-four shall be made, and the numbers assigned half-yearly on or after the first day of April and the first day of October in each year, upon such days as the Commissioners shall appoint, and a fee of Rs. 4 shall be paid for each registration.

The Commissioners may in their discretion remit any portion of the fee so payable if they are satisfied that the cart hereinbefore required to be registered, as mentioned in section ninety-four, has been kept or used for a portion of the half-year only.

When any registered cart is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee of four annas shall be paid for every such last-mentioned registration.

The total net proceeds of the fees half-yearly received by the Commissioners for the registration of carts, after deduction of the charges incurred on account of such registration, shall be divided between the Municipalities of Calcutta and Howrah, and such other Municipalities adjacent to Calcutta or Howrah as the Local Government shall declare to be entitled to a share in such receipts, in such proportion as the Local Government may, from time to time, determine.

(*c*) which are kept at any place more than eight miles distant from Government House and are only temporarily and casually used within the Municipality of Calcutta or Howrah.

On failure to register, the Commissioners may seize and sell cart and animals.

98. If any person owns or keeps any cart hereinbefore required to be registered, without having caused the same to be registered, the Commissioners may seize such cart (provided the same be not employed at the time of the seizure in the conveyance of passengers or goods), together with the animals or cattle drawing the same, and may detain them.

And all Police Officers shall, on the application of the Commissioners, seize and detain any such cart, animals or cattle.

If the cart, animals, or cattle so seized be not claimed within ten days, they may be sold by auction by order of a Magistrate, and the proceeds of such sale may be applied to the expenses incurred on account of the seizure, detention, and sale; and the surplus (if any), if not claimed within a further period of twenty days, shall be paid to the credit of the Corporation.

And all petroleum introduced into Calcutta, contrary to any rules made under the provisions of this section, may be seized and confiscated.

All petroleum confiscated under this section shall become the property of the Commissioners.

Appropriation of the General Fund.

105. The general rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the General Fund.

The General Fund shall be credited with the receipts of the general rate, with all moneys paid to the Commissioners in accordance with the provisions of this Act other than those assigned to the Water-supply Fund, Lighting Fund or Sewage Fund, and with such other

Provided that, when any of the other rates are levied at a maximum, but not otherwise, grants may be made by the Commissioners in meeting in aid of any fund dependent on such rate if the receipts of the Fund fall short of the requisite disbursements.

The four rates to be levied as a consolidated rate.

106. These four rates, after having been fixed under section seventy-one of this Act, shall be levied as one consolidated rate, and the collections made on account of this rate shall be divided between the General Fund, the Water-supply Fund, the Lighting Fund and the Sewage Fund in the proportions at which the rates are being levied for the time being without reference to the year on account of which each payment is made.

Such deduction shall, however, be made from the proportion to be credited to the Water-supply Fund as may seem to the Commissioners in meeting to be approximately equivalent to the diminished productiveness of that rate, owing to the partial exemption of certain premises under clause (*b*) of section one hundred and one.

Rate by whom and when payable.

107. The consolidated rate shall be payable half by the owners of the houses and lands, and half by the occupiers thereof. It shall be payable on the first day of April, first day of July, first day of October and first day of January for the quarters, respectively, commencing on those dates.

PART II.—*Of the Owner's share of the Consolidated Rate.*

If assessment be made at a higher annual value than the amount paid by the occupier, owner may recover difference from him.

108. If the annual value of any house or land as determined under Chapter V shall in any case exceed the amount of rent payable to the owner, the owner may in such case recover from the person who pays him rent the difference between the sum assessed upon him as the owner's share of the consolidated rate and the sum at which he would have been assessed had the house been valued only at the amount of rent actually payable to him, and such difference shall be added to the rent and shall be recovered by the owner from the person liable for the payment thereof.

Refund of owner's share of consolidate rated.

109. When any house or land whereon the consolidated rate is assessed under Chapter V has been vacant for sixty consecutive days during any year, the person liable to pay the owner's share of the consolidated rate shall, if notice in writing be given to the Commissioners of such house or land being vacant, be liable to pay only one-fourth of the consolidated rate due on account of the period of vacancy—the period of vacancy being calculated from the date on which the notice is delivered; if more than one-fourth of the consolidated rate has been paid in advance, the surplus shall, on demand, be refunded.

No refund unless application be made within six months from vacancy.

110. No refund shall be made under the last preceding section unless the same shall be applied for within six months from the date of vacancy of the house or land on account of which the refund is applied for.

PART III.—*Of the Occupier's share of the Consolidated Rate.*

Refund of occupier's share of consolidated rate when house ceases to be occupied.

111. When any house or land whereon the consolidated rate is assessed under Chapter V is vacant, the person liable to pay the occupier's share of the rate up to the period of such vacancy shall, if he has paid for the whole quarter, be entitled to a refund of all the rate paid by him for the period during which the house is vacant, or for the period during which it may have been occupied by a new occupier, if notice shall have been given in writing to the Commissioners of such house or land being vacant; and the date of vacancy shall be calculated from the date of delivery of such notice at the office of the Commissioners.

No refund of rates unless application made within six months from vacancy.

112. No refund of rates shall be made under the last preceding section unless the same is applied for within six months from the date of cessation of occupation of the house or land on account of which the refund is applied for.

Rate payable on house or land becoming occupied.

113. Whenever any house or land which shall have been unoccupied shall be occupied during any quarter, there shall be forthwith payable in respect of such house or land the full occupier's share of the consolidated rate for the period between the date of occupation and the last day of the quarter.

Person sub-letting to different persons to be deemed occupier.

114. Whenever any person holding any house or land at a rent from the person liable to pay the owner's share of the consolidated rate in respect of such house or land has or may sub-let the same to different persons holding in severalty, the person so holding shall, for the purposes of this Act, be deemed to be the occupier of such house or land.

Power to impose entire rate on owner in certain cases.

115. If any house is occupied by more than one person holding in severalty, or is valued at less than Rs. 200, the Commissioners may impose the entire consolidated rate upon the owner of such house.

Owner to recover from occupier rate paid by owner.

116. If the entire rate is paid by the owner of any house under the last preceding section, such owner may, if there be but one occupier of the house, recover from such occupier half of the rate so paid by such owner;

and if there be more than one occupier, he may recover from each occupier half of such sum as shall bear to the entire amount of rate so paid by him the same proportion as the value of the portion of the house in the occupation of such person bears to the entire value of such house.

Imposition of consolidated rate in the case of bustee land.

117. The entire consolidated rate imposed upon bustee land and the huts built thereon shall, after deducting therefrom a sum equal to one-eighth of such rates, be paid by the owner of such land. The sum deducted shall be retained by the owner of the land as a set off against the expenses which may be incurred in collecting the portion of the rate recoverable from the occupiers of the land or the owner or occupiers of huts built thereon, under the provisions of the next succeeding section, and as a commutation of all refunds in respect of huts which are vacant or which may be removed or destroyed during the continuance of the period for which the rate is imposed :

Provided that no additional rates shall be imposed on account of any new huts built or of any huts enlarged during the year for which the valuation remains in force, under the provisions of section one hundred and twenty-four.

Owner to recover from occupier rates paid by owner.

118. Whenever a rate is imposed on bustee lands, the Commissioners shall cause the land and the huts standing on it to be separately valued, and the owner of the land may recover from the owner of each hut half the consolidated rate paid by him for the land on which the hut stands, and the entire consolidated rate payable on account of the hut.

Owner to have same power for recovering rates as for recovering rent.

119. Every owner who, under the provisions of sections one hundred and sixteen and the last preceding section may be entitled to recover any sum from the occupier of any house or of any portion thereof, or from the owner of any hut, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to him.

Occupier of house or land may be required to furnish name of owner.

120. The Commissioners may by a notice in writing require the occupier of any house or land to furnish them, within fifteen days, with the name and address of the owner of such house or land, and such name and address, when so received, shall be registered provisionally in the assessment book kept under section one hundred and twenty-eight.

On failure occupier liable to owner's rates.

121. If the occupier of any house or land shall refuse or neglect to furnish the information so required of him under the last preceding section, he shall be liable to pay the rates payable by the owner on account of such house or land, and on non-payment thereof the Commissioners may recover the same by distress and sale of any moveable property found in the house or on the land :

Provided that no arrear of rate which has remained due from the owner of any house or land, for more than one year, shall be so recovered from the occupier thereof.

CHAPTER V.

OF THE ASSESSMENT OF HOUSES AND LAND.

Annual value of house or land how to be ascertained.

122. For the purpose of assessment under this Act, the annual value of land and the annual value of any house built for letting purposes or ordinarily let shall be the gross annual rent at which such land or house might reasonably be expected to let from year to year, less, in the case of a house, an allowance of 10 per cent. for the cost of repairs, and for all other expenses necessary to maintain the house in a state to command such gross rent. The annual value of any house not built for letting purposes and not ordinarily let shall be 5 per cent. on the sum obtained by adding the estimated present cost of building the house, less a reasonable amount to be deducted on account of depreciation, if any, to the estimated value of the land valued with the house as part of the same premises.

When a house is occupied by the owner under such exceptional circumstances as renders a valuation of 5 per cent. of the cost of building, less depreciation, excessive, a lower percentage may be taken.

The value of land so estimated shall not include the value of any machinery thereon.

Annual value to be assessed by the Commissioners ; valuation to remain in force for six years.

123. All valuations of houses made by the Commissioners prior to the commencement of this Act shall remain in force during the period for which they were so made, and on the expiration of such period, the annual value at which any house is to be assessed shall be fixed by the Commissioners for a period of six years, and thereafter for successive periods of six years :

Provided that for the purpose of dividing the town into districts under section one hundred and twenty-nine, the Commissioners may retain the valuation of the houses in any part of Calcutta for a further period not exceeding six years, or may, with the same object, make a re-valuation for a less period than six years.

Bustee lands may be valued annually.

124. Bustee lands with the huts upon them, or lands that are waste or used for agricultural purposes, may be valued annually at the discretion of the Commissioners, and shall be so valued on the application of the owner. When not re-valued, the former valuation shall remain in force from year to year until a re-valuation is made.

Intermediate valuation in certain cases.

125. Any house, the valuation of which may have been cancelled on the ground of irregularity, or which for any other reason may have no annual value legally assigned to it, may be valued at any time under section one hundred and twenty-two for such period as remains unexpired in the district in which it is included under section one hundred and twenty-nine.

When substantial improvement made, Commissioners may re-value.

126. If during the currency of any period mentioned in section one hundred and twenty-three any substantial alteration and improvement is made to any such house, the Commissioners may cause such house to be again valued, even though such period has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation.

When substantial injury done, Commissioners may re-value.

127. If during the currency of any period mentioned in section one hundred and twenty-three the value of such house shall suffer depreciation from any cause proved to

the satisfaction of the Commissioners to have been beyond the control of the owner or occupier thereof, the Commissioners shall as soon as practicable, on application being made to them in writing by the owner or occupier of such house, cause it to be again valued, even though the current period of valuation has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation :

Provided that if any substantial alteration and improvement shall be made, prior to the expiration of the said period of valuation, to the house which shall have been again valued as aforesaid, the Commissioners may cause such house to be again valued as under the last preceding section.

Annual value fixed to be entered in a book.

128. The annual value fixed by the Commissioners as hereinbefore provided shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written—

(*a*) number of premises;
(*b*) description of premises;
(*c*) name of person primarily liable to pay the rate;
(*d*) amount of valuation;
(*e*) amount of rate payable quarterly;
(*f*) if exempted, the ground of exemption.

This information may be contained in as many books as the Commissioners may, from time to time, determine which shall together constitute a book to be called the "assessment book."

When the name of the owner or occupier is not known, it shall be sufficient to designate him in the assessment book as the "owner" or "occupier."

Owner or occupier may apply to have his name entered as such in assessment book.

Any owner or occupier may at any time apply to the Commissioners to have his name entered as owner or occupier in the assessment book, and the Commissioners shall, unless there is sufficient reason to refuse such application, (which refusal shall be in writing) cause such name to be entered in the assessment book.

Where there are gradations of owners or occupiers, and doubt exists as to who is entitled to be registered as owner or occupier of any premises, the Commissioners shall determine which of the several owners or occupiers is entitled to be registered as such, and their decision shall remain in force for the purposes of this Act till set aside by the order of a competent court.

No owner or occupier whose name is not entered in the assessment book shall be entitled to object that any bill, notice of demand, warrant or other notice of any kind required by this Act to be served on the owner or occupier of any house or land, has not been made out in his own name:

Provided that any person who has paid the owner's share of the consolidated rate for the last preceding quarter may, if there is no opposition to his application to be registered as owner,

Person paying owner's share of consolidated rate may be registered provisionally as owner.

but such application is rejected or postponed for want of evidence, claim to have his name provisionally registered as owner, and when his name is so provisionally registered he shall enjoy all the privileges and incur all the liabilities attaching to the owner of any house or land under this Act so long as no other person claims to be registered as owner.

A list shall be published annually, in such manner as the Commissioners may determine, stating the names of all persons who are provisionally registered and the premises in respect of which they are so registered.

Any name provisionally registered as that of an owner of any premises shall after three years, if no objection be taken, be transferred to the assessment book as that of the owner of such premises.

New valuations or measurement to be made.

129. For the purpose of valuing houses for a period of six years, the Commissioners shall divide Calcutta into such and so many districts as they may think fit, and proceed to make separate valuations district by district, and shall enter the same in the assessment book.

Returns may be required for purpose of valuation.

130. The Commissioners, by a notice in writing, may require the owner or occupier of any house or land to furnish them with returns of the measurements and of the rent or annual value thereof; and the Commissioners, or any person authorized by them in that behalf, may at any time between the hour of seven in the forenoon and sunset enter on, and inspect, survey, and measure such house or land after giving a notice in writing of not less than twenty-four hours.

Penalty.

131. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return, and whoever hinders, obstructs, or prevents any Commissioner, or any person appointed by the Commissioners as aforesaid, from entering on inspecting or measuring any such house or land shall be liable to a fine not exceeding Rs. 200 for every such offence.

Public notice of valuation to be given.

132. When the valuation of any of the districts into which Calcutta may have been divided by the Commissioners in accordance with the provisions of section one hundred and twenty-nine shall have been completed, the Commissioners shall give public notice thereof, and of the place where the statement of valuations of all the houses included in such district may be inspected. Such notice shall be by advertisement in at least two English newspapers, and in two Vernacular newspapers, published in Calcutta, and also by placards posted up in conspicuous places throughout such district.

And the person in whose custody the statement of valuations may be, shall permit any person, being the owner or occupier of any house or land included in the district or the agent of such owner or occupier, to inspect the records and to make extracts therefrom without payment of any fee, and any person, not being such owner or occupier to inspect and make extracts, in like manner, on payment of a fee of one rupee in respect of each entry extracted.

Notice when valuation made for first time or increased.

133. The Commissioners shall, in all cases in which any house is for the first time valued, or in which the valuation of any house previously valued is increased, give special

notice thereof to the owner or occupier of the same, and when the valuation is increased as aforesaid, the said notice shall state the grounds of such increase.

Notice to be given before re-valuing bustee land.

134. Before re-valuing any bustee, or other land under section one hundred and twenty-four, the Commissioners shall give notice to the owner of the land that on or after a date, not less than fifteen days from the receipt of such notice by the owner of the land, such re-valuation will take place, and if the valuation so made exceeds the previous valuation, the Commissioners shall give to the owner a special notice of the amount of the valuation with full details thereof.

Person dissatisfied with valuation to give notice of objection.

135. Any person who is dissatisfied with a valuation made under this Chapter shall in the case of houses, within fifteen days after the publication of the notice referred to in section one hundred and thirty-two, or after receipt of the notice referred to in section one hundred and thirty-three, when such notice is received after the publication of the notice referred to in section one hundred and thirty-two, and in the case of bustee or other land within fifteen days after the receipt of the special notice referred to in section one hundred and thirty-four, deliver at the office of the Commissioners a notice in writing stating the grounds of his objection.

Objection to be entered in register and to be investigated and determined by Chairman or Vice-Chairman.

136. All such objections shall be entered in a register to be maintained for the purpose, and on receipt of any objection, notice shall be given to the objector of a day and place when his objection will be investigated.

On the day and place notified, the Chairman or Vice-Chairman (if the case is referred to him by the Chairman) shall hear the objection in the presence of the objector if he shall appear, or the Chairman or Vice-Chairman may, for reasonable cause, adjourn the investigation. When the objection has been determined, the order passed shall be recorded in the register of objections, together with the date of such order.

Person dissatisfied with decision of Chairman or Vice-Chairman may appeal to Small Cause Court.

137. Any person dissatisfied with the orders passed on his objection may appeal to the Court of Small Causes having jurisdiction in the place where the house, land or bustee land is situated. Such appeal shall be presented to the Court of Small Causes within thirty days of the decision of the objection under section one hundred and thirty-six, and shall be accompanied with an extract from the register of objections containing the orders objected to. No appeal shall be admitted unless an objection has first been taken under section one hundred and thirty-five.

Valuation by Commissioners when to be final.

138. The valuation by the Commissioners when no appeal therefrom is made as hereinbefore provided, and the adjudication of any appeal under the last preceding section when an appeal is made, shall be final and binding.

139. The valuation made by the Commissioners subject to such alterations as may from time to time thereafter be duly made, shall be entered in the assessment book, and the assessment calculated on the said valuation shall, subject to such alterations as aforesaid, be deemed to be the amount payable during the whole period for which the valuation is in force, and this period shall be calculated from the commencement of the quarter next succeeding that in which any such amendment shall be so authenticated; and until such date the old valuation shall continue in force, notwithstanding that the period for which it was made may have expired.

Alteration or amendment of valuation.

140. The Chairman or Vice-Chairman may at any time amend the assessment book by inserting therein the name of any person whose name ought to be so inserted, or by inserting any house or land liable to the rate, or by inserting a valuation when the house or land liable to be valued has not been valued, after giving notice to any person interested in the making of the amendment of a day, not being less than fifteen days from the date of the service of such notice, when such amendment is to be made; the Chairman or Vice-Chairman may also strike out the name of any person, or any house or land not liable to the rate or reduce the amount of the valuation without notice:

Provided that no reduction shall be made inconsistent with the provisions of section one hundred and thirty-eight.

If any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice; and any person interested in such amendment may object by application in writing to the Commissioners, to be left at their office three clear days before the day fixed in the said notice; and the provisions of sections one hundred and thirty-five, one hundred and thirty-six, one hundred and thirty seven, and one hundred and thirty-eight shall, so far as may be practicable, apply to such objection.

CHAPTER VI.

OF LEVYING THE RATES.

Notice of demand.

142. If the bill is not paid by the person liable to pay the same within seven days from the presentation thereof, the Commissioners may cause to be served upon such person a notice of demand in the form contained in the fifth Schedule, or to the like effect; and, if he shall not, within seven days from the service of such notice of demand, pay the sum due, or show sufficient cause to the satisfaction of the Commissioners for non-payment of the same, such sum, with all costs, may be levied by distress and sale of the moveable property of the defaulter, or if the defaulter be the occupier of any house or land in respect of which a rate is due, by distress and sale of any moveable property found on the house or land, whether actually belonging

For every notice of demand under this section which the Commissioners shall cause to be served upon any person, a fee, not exceeding one rupee, shall be payable.

Such fee shall be added to the amount of the rate in respect of which the notice is given, and, if not duly paid, may be levied in the same manner as such rate may be levied.

Inventory—notice of distress.

143. The officer charged with the execution of a warrant of distress under the last preceding section shall forthwith make an inventory of the moveable property seized under such warrant, and shall at the time give a notice in writing in the form contained in the Seventh Schedule, or to the like effect, to the person in possession thereof at the time of the seizure, that the said moveable property will be sold as therein mentioned.

Sale.

144. If the warrant is not in the meantime discharged or suspended by the Commissioners, the moveable property seized shall be sold and the proceeds, or such part thereof as may be necessary, shall be applied in discharge of the said arrears and costs;

and the surplus, if any, shall be returned on demand to the person in possession of the moveable property at the time of the seizure.

All distresses under this Chapter shall be reasonable and the amount of property seized shall be proportionate to the arrears due, and all sales of property under this section shall, so far as may be practicable, be regulated by the procedure now in force, or hereafter to be in force in the Court of Small Causes with respect to sale after distress.

All officers and servants of the Corporation are prohibited from purchasing any property at any such sale.

146. If the sum due on account of any rate from the owner of any house or land remains unpaid after notice of demand has been duly served, the Commissioners may demand the amount from the occupier or any of his sub-tenants for the time being of the house or land, and on non-payment thereof, may recover the same by distress and sale of any moveable property found on the house or land, as provided in section one hundred and forty-two, and, in such case, the occupier or his sub-tenant may deduct, from the next and following payments of his rent, the amount which may be so paid by, or recovered from, him:

Provided that no arrear of rate so due shall be recovered from the occupier if it has been due for more than one year, or for a period during which the occupier was not in occupation.

Rates due from vendor may be recovered from purchaser.

147. The purchaser of any house or land for which any sum is due on account of the rate payable by the owner at the time of such purchase shall be liable for the amount due on account of such rates for any period not exceeding one year prior to the purchase.

Distress not unlawful for want of form.

148. No distress levied under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser, on account of any defect or want of form in the notice, schedule, summons, notice of demand, warrant of distress, inventory, or other proceeding relating thereto, nor shall such party be deemed a trespasser on account of any irregularity committed by him; but all persons aggrieved by such irregularity may recover, in any court of competent jurisdiction, full satisfaction for any special damage sustained by them.

Commissioners may sue instead of proceeding by distress.

149. Instead of proceeding by distress and sale, or in case of failure to realize by distress and sale the whole or any part of the sum due in respect of any rate, the Commissioners may sue, in any court of competent jurisdiction, the person liable to pay the same.

CHAPTER VII.

OF THE WATER-SUPPLY.

Commissioners to provide water-supply.

150. The Commissioners shall provide a supply of water within all parts of Calcutta, and shall for that purpose cause such mains and pipes to be laid and such tanks, reservoirs, or other works to be made and constructed as shall be necessary for the supply of filtered water in the principal public streets, and shall also erect sufficient and convenient stand-pipes or pumps for the gratuitous use of the inhabitants for domestic purposes.

What are not domestic purposes.

152. A supply of water for domestic purposes shall not include a supply of water for animals, or for washing carriages, where such animals or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for fountains, or for watering gardens or roads, or for any ornamental or mechanical purposes.

Pressure at which water must be kept.

153. The Commissioners shall, so far as may be reasonably practicable, between the hours of six in the forenoon and eight in the

afternoon, keep and maintain throughout their pipes and mains a sufficient supply of filtered water under a pressure of not less than ten feet for the domestic use of the rate-payers, and shall every day, for not less than two hours in the forenoon and one hour in the afternoon, maintain a pressure of water in the service pipes and mains sufficient to raise the water in all houses and places in which the same may be introduced within the area at present supplied to a height of not less than thirty feet, and shall test the purity of the water supplied once every week or at such intervals of time as the Commissioners in meeting may direct.

Supply for business.

154. The Commissioners may supply water through a meter, for other than domestic purposes, if the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required and the quantity likely to be consumed.

The Commissioners may thereupon, subject to such charges or rates as may have been fixed by the Commissioners in meeting, lay down, or allow to be laid down, the necessary communication-pipes and works of such dimensions and character as may be fixed by the Commissioners.

No meter shall be necessary in any case in which the applicant agrees to pay such sum per mensem for the use of the water as may be fixed by the Commissioners.

When water is supplied by the Commissioners through a meter, it shall be presumed that the quantity indicated by the meter has been consumed until the contrary is proved.

Penalty.

Any person using water supplied by the Commissioners for other than domestic purposes without the leave of the Commissioners shall be liable to a fine not exceeding Rs. 20.

If the Commissioners have reason to believe that the occupier of any house consumes more filtered water than he is entitled to as aforesaid, it shall be lawful for the Commissioners to provide a water-meter at their own expense, and attach the same to the water-pipes of the said house; and any water which may be used over and above the quantity to which the occupier is entitled as aforesaid shall be paid for by him at the rate of one rupee for every three thousand gallons:

Provided that no charge shall be made by the Commissioners for unfiltered water supplied under the next succeeding section.

Communication-pipes to be made of required dimensions and at expense of house-holder.

158. Whenever the Commissioners shall deem it practicable and consistent with the maintenance of an efficient water-supply, they shall allow any person living in a masonry house and paying the water-rate hereinbefore mentioned to lay down communication-pipes from the service pipes of the Commissioners for the purpose of bringing into his house or land a supply of water for domestic use in accordance with the scale of ferrules prescribed under the ninth schedule;

If ferrule prescribed by schedule insufficient, Commissioners shall permit use of larger ferrules.

Provided that if the house is so situated that the size of the ferrule prescribed for the use of such house under such scale is insufficient to pass the daily supply of water which the occupier of such house is entitled to receive under section one hundred and fifty-five, the Commissioners shall permit the use of a ferrule of such size as shall be sufficient to pass such supply:

Commissioners may replace existing ferrule by another.

Provided also that the Commissioners may at their own expense replace any ferrule, used for the supply of water to any house at the time when this Act comes into force which is of larger size than the occupier of such house under such scale is entitled to use, by a ferrule of the size prescribed under such scale for the use of such house:

Power to enter premises.

160. The Commissioners may, between the hours of seven in the forenoon and five in the afternoon, enter into or on any house or land supplied with water as aforesaid in order to examine all pipes, works, and fittings connected with the supply of water, and to ascertain if there be any waste or misuse of such water;

and if the Commissioners at any such time be refused admittance into such house or land for the purposes aforesaid, or be prevented from making such examination as aforesaid, they may forthwith turn off or cut off the water from such house or land:

Provided that nothing hereinbefore contained shall authorize an entry into any room appropriated for the zenana or residence of women, which by the custom of the country is considered private, unless a notice in writing of not less than four hours be given.

When pipes are out of repair, Commissioners may cut off, or turn off water.

161. In the event of any pipes, works, or fittings connected with the supply of water to any house or land being at any time found on examination by the Commissioners to be out of repair to such an extent as to cause any waste of water, the Commissioners may cause the water to be turned off or cut off from the house or land, after giving notice in writing of not less than twenty-four hours to the person in occupation thereof, and may recover the expense incurred for cutting off the water from the occupier of such house or land.

Water may be turned off or cut off on neglect to pay the rate.

162. If any person supplied with water shall neglect to pay the water-rate hereinbefore mentioned at any of the times of payment thereof, or the charge made for the said water when supplied for other than domestic purposes, the Commissioners may cause the water to be turned off or cut off from the house or land in respect of which such rate or charge is payable, and may recover the expense from such person:

Provided that the turning off or cutting off the the supply of water shall not relieve any person from any penalties or liabilities which he may otherwise have incurred.

163. The occupier of any house or land in which water supplied by the Commissioners under this Act is from negligence or other circumstances under the control of the said occupier wasted, or in whose house or land the pipes, works, and fittings for the supply of water shall be found to be out of repair to such an extent as to cause any waste of water, shall be liable to a fine not exceeding Rs. 20.

244. If the Commissioners fail to pass orders within thirty days, as required by sections two hundred and thirty-seven and two hundred and thirty-eight, the person making such application may, notwithstanding anything hereinbefore contained, proceed to build or rebuild the house.

Hoards to be set up during repairs.

245. Every person intending to build or take down any house, or to alter or repair the outward part of any house, where any public street will be obstructed or rendered inconvenient by means of such work shall, before beginning the same, cause sufficient hoards or fences to be put up, in order to separate the house where such works are being carried on from the street, and shall keep such hoard or fence standing and in good condition, to the satisfaction of the Commissioners, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted:

Provided that no person shall put up a hoard or fence without the written permission of the Commissioners, and shall not keep up such hoard or fence for a time longer than that specified in such written permission.

Penalty.

246. Every person who begins to build, or to take down, or alter, or repair any house contrary to the provisions of the last preceding section, or who, without a license, erects or sets up any hoard, scaffolding, or fence whatsoever, or who, having obtained permission, fails to put up such fence or hoard, or to maintain the same standing and in good condition, or who does not, while such

hoard or fence is standing, keep the same sufficiently lighted, or who does not remove the same when the time specified in the permission has elapsed, shall be liable to a fine not exceeding Rs. 50 for every such offence, and to a further fine not exceeding Rs. 20 for each day during which the offence is continued after he has been convicted of such offence.

PART III.—*Of Building Regulations regarding Huts and Bustees.*

Notice in prescribed form to be given before building a hut.

247. Before beginning to build, re-build or add to any hut, the person intending so to do shall make an application to that effect to the Commissioners in a form to be provided by them (for which no charge shall be made.) Such form shall require a ground plan of the hut drawn to the scale of eight feet to the inch and such other details as the Commissioners may prescribe. On receipt of such application, the Commissioners shall, within fourteen days, express their approval of the proposed work, or their disapproval on any one or more of the following grounds:—

(*a*) That the site is ill-chosen with reference to adjacent huts or with reference to any present or proposed roads.

(*b*) That the ventilation will be defective.

(*c*) That the arrangements for scavenging or drainage are defective.

(*d*) That the hut will be within thirty feet of a tank.

(*e*) That the hut will be on the site of a tank which has been so recently filled up as to be prejudicial to the health of a person dwelling in it.

(*f*) That the plinth is not two feet above the level of the centre of the nearest street.

(*g*) That the erection of the proposed hut will infringe some specified bye-law made under this Act.

If the proposal is approved the hut may be built, re-built, or added to at any time within six months after the date of sanction. If it is disapproved on any of the grounds above stated, the work shall not be commenced till such modifications have been made in the plan of the proposed hut as the Commissioners may deem necessary.

Power to demolish hut built without sanction.

248. If any hut be built, re-built, or added to without making such application to the Commissioners as is required by the last preceding section, or before the approval of the Commissioners has been obtained under that section, the Commissioners may cause such hut or so much of it as has been constructed to be demolished or altered in such manner as they may prescribe; and the expenses of such demolition or alteration shall be paid by the person failing to comply with the provisions of this Act.

Penalty.

249. The Commissioners may, in addition to, or in lieu of, exercising the powers conferred on them by the last preceding section prosecute any person who builds, re-builds, or adds to any hut in contravention of the provisions of section two hundred and forty-seven, and such person shall be liable to a fine not exceeding Rs. 100 for any such offence, and to a further fine not exceeding Rs. 20 for every day during which the offence is continued after he has been convicted of such offence.

If Commissioners fail to pass orders, the person making application may proceed to build or rebuild the house.

250. If the Commissioners fail to pass orders within fourteen days as required by section two hundred and forty-seven, the person making such application may notwithstanding anything hereinbefore contained proceed to build or rebuild the house.

Powers of the Commissioners with respect to bustees.

251. The Commissioners may define the external limits of any bustee, and may from time to time modify such limits; and for the purposes of this Act, land comprised within such limits shall be deemed to be a bustee:

Provided that every bustee shall consist of one or more complete plots of bustee land, separately numbered as such in the assessment book, and no plot bearing only one number shall be divided so as to fall within the limits of separate bustees. The existence of one or more houses with the land attached thereto, within the limits defined as above, shall be no bar to the bustee lands within such limits being deemed to be a bustee: Provided also that the Commissioners shall have no power under this Part of exercising any control over such houses and land attached, except by acquiring the whole or any portion of them by purchase or in the manner provided by Chapter XIII, Part II.

Commissioners may call upon bustee owners to furnish a standard plan.

252. The Commissioners may at any time serve a notice upon the owners of a bustee, calling on them to prepare a joint plan thereof to the scale of forty feet to the inch showing the manner in which such bustee should be laid out with the huts standing in regular lines and with a free passage in front of and behind each line, of such width as may be necessary for ventilation and for scavenging. The plan shall also show the proposed drains of the bustee, the water-supply, bathing arrangements (if any) and the privy accommodation to be provided for the use of the tenants, the roads which are to be maintained for their benefit, the land, if any, which is to be kept as common land, the tanks which are to be filled up or conserved, and any other proposed improvements.

Plan finally approved by Commissioners to be taken as standard plan.

Such plan, when prepared as above, shall be considered by the Commissioners, and such modifications shall be made therein as the Commissioners shall require. After any plan has been finally approved of by the Commissioners, it shall be taken as the standard plan of the bustee. If any land within the limits of a bustee is not bustee land, the standard plan shall be so prepared as clearly to distinguish it from the bustee land.

When a call has been made on the owners of the bustee to prepare a joint plan under this section, no hut shall be built, re-built, or added to within the bustee till a standard plan has been prepared.

Commissioners, under certain circumstances, may prepare a standard plan.

253. If the owners of a bustee cannot agree among themselves in the preparation of a joint plan, or if they for any reason prefer to have a joint plan prepared for them by the Commissioners, or if they fail to comply with the notice to submit a

joint plan within the space of sixty days, the Commissioners shall, within a further period of sixty days, themselves prepare a plan to the scale and in the manner prescribed in the last preceding section for which they may charge the owners at such rate not exceeding Rs. 3 per bigah as the Commissioners in meeting may fix. The cost of preparing such plan may be recovered as a rate under this Act.

Objections to Commissioner's plan to be entertained.

254. When a plan has been prepared by the Commissioners under the last preceding section, they shall fix a day for the hearing of objections on the part of the owners; and may at their discretion modify the plan in accordance with any objections made. When the objections have been disallowed, or when the plan has been modified in conformity with any objections raised, it shall be approved of by the Commissioners, and shall thereafter be taken as the standard plan of the bustee.

Commissioners may require huts to be built in conformity with the standard plan.

255. When a standard plan has been prepared for any bustee under sections two hundred and fifty-two or two hundred and fifty-four, no hut shall be built, re-built, or added to in such bustee, unless the hut or the portion to be added occupies a site, or portion of a site marked as the site for a hut in the standard plan. The Commissioners may, at any time by paying compensation to the owner of any hut not in conformity with the standard plan, require him to take down his hut and re-build it in conformity with such plan. Such compensation shall, in the event of dispute, be determined in the manner provided in this Act for the settlement of disputes respecting damages and expenses.

The Commissioners may at any time serve a notice upon the owners of any bustee, calling upon them to construct the roads, privies, drains, and other details shown in the standard plan of any bustee, so far as may be practicable in the existing arrangement of the huts, and if any tank is shown as to be filled up or improved, may call upon the owner to fill up or improve such tank. Till such notice is complied with, the Commissioners may refuse to sanction the building or re-building of any hut in the bustee, or any addition to any existing hut.

Remodelled bustees.

256. When a bustee has been brought into conformity with a standard plan which has been prepared for it, it shall be deemed to be a remodelled bustee.

Report by medical officers on unhealthy bustees.

257. When it appears to the Commissioners in meeting that any bustee is, by reason of the manner in which the huts are crowded together, or for any other reason, in such an unhealthy condition that the procedure provided by sections two hundred and fifty-two to two hundred and fifty-six will be too dilatory for improving such bustee, they may cause it to be inspected by two medical officers who shall make a report in writing on the sanitary condition of the said bustee.

Such report shall be accompanied by a plan which shall be approved of by the medical officers as a proper standard plan of the bustee, and they shall certify which of the changes necessary to bring the bustee into conformity with the proposed standard plan should be taken in hand forthwith, in consequence of the unhealthy condition of the bustee, and which can await the procedure prescribed in sections two hundred and fifty-two to two hundred and fifty-six. The former changes shall be shown in a Schedule attached to the report to be called Schedule A; and this Schedule shall clearly indicate the huts which should wholly or in part be removed, the roads and drains which should be constructed, the tanks or low lands which should be filled up, and any other works necessary to remove or abate the unhealthy condition of the bustee. If for the purpose of making such roads or effecting any other improvement, it is necessary to purchase or acquire any land within the bustee which is not bustee land, the schedule shall specify the land which should be purchased or acquired.

On receipt of report Commissioners may cause notice to be served.

258. On receipt of the report of the medical officers, the Commissioners in meeting may cause a notice to be served upon the owners or occupiers of the huts, or at the option of the Commissioners, the owner of the land on which such huts are built, requiring them to carry out and execute within a reasonable time, to be fixed by the Commissioners for such purpose, all or any of the works specified in the aforesaid Schedule A annexed to the report, or any portion thereof respectively.

The Commissioners in meeting shall also approve of the standard plan prepared by the medical officers with such modifications as they may deem proper.

Commissioners may carry out works if owners or occupiers refuse.

259. If, after the service of the notice referred to in the last preceding section, such owners or occupiers, or the owners of the land, shall refuse or neglect to carry out and execute the said works within the time appointed, the Commissioners may cause all or any of the said works, or any portion thereof respectively, to be executed; and the expenses thereby incurred, including such reasonable compensation as the Commissioners think fit to pay to the owners or occupiers of huts destroyed or removed, shall be paid by the owners of the land:

Provided that the Commissioners in meeting may order the expenses so incurred to be recovered by instalments from the said owners, of the land or, if it should appear to them that any such owner is unable by reason of poverty to pay the same, may order the same or any portion thereof to be paid out of the General Fund.

Expenses may be recovered by instalments or remitted in case of poverty.

Sale of huts.

260. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be given to the owner of the hut; or if the owner be unknown, or the title disputed, the materials shall be sold and the proceeds shall be held in deposit by the Commissioners until the person interested therein shall obtain an order from a competent court for the payment of the same.

A Court of Small Causes shall be deemed a competent court for the purpose.

Commissioners on the report of medical officers may acquire land.

261. The Commissioners may, at any time, after the receipt of the report of the medical officers acquire by purchase, or in the manner provided by

Chapter XIII, Part II, any land other than bustee land shown in that report as land which should be acquired.

When an unhealthy bustee to be deemed remodelled bustee.

262. After the works specified in Schedule A attached to the report filed under section two hunderd and fifty-seven, or so much of such works as are approved by the Commissioners in meeting, have been completed, the provisions of section two hundred and fifty-five shall apply to such bustee until it is brought into complete conformity with the standard plan approved in accordance with the provisions of section two hundred and fifty-eight, after which the bustee shall be deemed to be a remodelled bustee.

Provisions as to standard plan.

263. No standard plan, prepared under sections two hundred and fifty-two, two hundred and fifty-three, two hundred and fifty-seven, or two hundred and sixty-eight shall, without the consent of the owners, show more than one-fifth of the area of the bustee as roads or more than one-half as open lands not to be built upon, whether such open land be common ground, roads, or spaces behind a line of huts; but no tank that is not filled up shall be taken into account in calculating the above proportion. The proposed standard plan shall also, as far as possible, provide for one or more huts being completely contained in each separate plot of bustee land within the bustee and for a due proportion of roadway and open ground in each plot; and if a greater portion of any one plot is taken for roads or open ground than the proportion allowed by this section, the compensation which should be paid to the owner of this plot and the persons who should pay such compensation by reason of their benefiting thereby shall be specified; if no other owner can be equitably called upon to pay such compensation, it shall be paid by the Commissioners. The compensation thus fixed shall not be payable till the plot belonging to the owner entitled to it has been brought into complete conformity with the standard plan.

Effect of notice of intention to change character of bustee land.

264. Any owner of bustee land included within the limits of a bustee may at any time give notice to the Commissioners that he intends to change the character of the whole or of any portion of the land belonging to him, so that it will cease to be bustee land. If his notice refers only to a part of his land, a separate number shall be forthwith assigned in the assessment book to the part to which the notice applies. From the date of such notice no application shall be received for building, re-building, or adding to any hut in the land to which the notice applies, and the owner shall be bound to remove all existing huts within six months after giving such notice. When all the huts have been removed, the land shall cease to be liable to the incidents of bustee land, and, according to its situation, shall either be altogether excluded from the limits of the bustee, or shall be shown in the standard plan of the bustee as land within the said limits which is not bustee land.

Roads in standard plan if not public streets remain private.

265. The roads shown in the standard plan of a bustee which are not already public streets shall, unless the Commissioners and the owners concerned otherwise agree, remain private streets; and the portion which falls on the land of each owner shall belong to such owner. Any portion which falls on land acquired or purchased by the Commissioners under section two hundred and sixty-one shall remain the property of the Commissioners.

Every such private street shall at all times be kept open to the conservancy carts of the Commissioners for the purpose of scavenging in the bustee, and shall also be kept open for the use of all the tenants of the bustee, but no such use, whether by the conservancy carts or by the tenants, shall be held by any lapse of time to confer a right of way on the public, so as to bring such street within the definition of a "public street."

Roads in a bustee not affected by change of character of bustee land.

266. If any portion of the land which it is sought to remove from the incidents of bustee land is shown in the standard plan of the bustee as a road or part of a road, the notice shall be held not to apply to such road without the express consent of the Commissioners, but such road shall continue part of a private street open to the use of conservancy carts and of the tenants of the bustee.

Owners of a bustee, when standard plan is prepared, deemed occupiers of the open spaces.

267. When a standard plan has been prepared for a bustee, the several owners of the bustee land shall be respectively deemed to be the occupiers of the roads, common ground, and of such drains of the bustee as serve more than one hut, so far as constructed in accordance with such standard plan, and the owner of each hut shall be deemed to be the occupier of the land occupied by his hut, of that portion of the open space behind his hut which appertains to it, and of any drain which is for the sole use of his hut.

Power to purchase, improve, and re-sell or lease unhealthy areas.

268. Notwithstanding anything contained in sections two hundred and fifty-seven to two hundred and sixty-two, the Commissioners in meeting may, upon receipt of the report prescribed under section two hundred and fifty-seven, pass a resolution to the effect that any bustee is an unhealthy area, and that, in the opinion of the Commissioners, the acquisition of the bustee, or any part thereof, by purchase, lease, or otherwise, is necessary for the purpose of making the requisite improvements thereon, and shall proceed to make a standard plan for the improvement of such land, and shall forward such plan, accompanied by such estimates as shall be necessary for a due understanding of the same, together with a copy of such resolution, for the consideration and sanction of the Local Government.

On receipt of such sanction, the Commissioners in meeting may acquire such land or any part thereof in the manner provided by Chapter XIII, Part II.

When the sanction of the Local Government has been accorded to any standard plan for the improvement of any land acquired by the Commissioners as above provided, the Commissioners in meeting may sell or let any part of the acquired land to any person for the purpose and under the condition that he will, as respects the land so purchased by, or leased to, him, carry out such standard plan.

The Commissioners may, instead of selling or letting the land acquired by them as aforesaid, themselves bring the bustee into conformity with such standard plan.

The Commissioners shall be bound to sell or lease such land in the manner aforesaid, or themselves to carry out the improvement sanctioned under this section within the term of four years from the date of their acquiring such land, unless the Local Government shall specially extend such term.

When a bustee has been improved under this section, it shall be deemed to be a remodelled bustee.

Commissioners may levy a rate for cleansing bustees.

269. The Commissioners in meeting may sanction the employment of a special establishment for the cleansing of bustees, and when such establishment has been sanctioned, they may impose a rate to defray the cost of such establishment, on the owners of such bustees:

Provided that, without the consent of the owners, no such rate shall be levied upon any remodelled bustee.

Commissioners may require bustees in a filthy condition to be cleansed.

270. If any bustee for which no such establishment as is referred to in the last preceding section is maintained, appears to the Commissioners to be in a filthy condition, the Commissioners may serve notices upon the occupiers as defined in section two hundred and sixty-seven, requiring them within three days to cleanse the same, and if the occupiers do not comply with the terms of such notices to the satisfaction of the Commissioners, the Commissioners may cleanse the whole or any portion of the bustee which requires cleansing, and may recover the cost incurred by them from the occupiers of such portions of the bustee as they have cleansed in such manner as a rate may be recovered.

CHAPTER XI.

OF DRAINAGE WORKS, DRAINS AND PRIVIES.

Commissioners to drain Calcutta.

271. The Commissioners may carry out such a complete system or systems of sewerage and drainage as they may think fit, subject to the approval of the Local Government, and such alterations as may from time to time be ordered by it.

Public sewers, drains, tunnels and culverts vested in the Commissioners.

272. All public sewers and drains, and all sewers, drains, tunnels, and culverts in, alongside, or under any public street, whether made at the cost of the Commissioners or otherwise, and all works, materials, and things appertaining thereto, shall vest in, and belong to, the Commissioners.

Powers of Commissioners in making public sewers.

273. The Commissioners shall have power to construct within Calcutta, and when necessary for the purposes of outfall or distribution of sewage without Calcutta, such sewers as they may think necessary for keeping the town properly cleansed and drained, and may carry such sewers through, across or under any road, street or place, and after reasonable notice in writing into, through or under any premises or lands whatsoever, and may from time to time enlarge, lessen, alter, arch over or otherwise improve, modify or change, or close up or destroy all sewers, vested in them, provided no nuisance is created by such operations; and if any person is thereby deprived of the lawful use of any drain or sewer, the Commissioners shall provide another as effectual for his use within one hundred feet from some part of his premises. The Commissioners shall cause their sewers to be so constructed, kept and cleansed as not to be a nuisance or injurious to health, and for the purpose of cleansing, flushing and emptying them may construct and place either above or under ground, such reservoirs, sluices, engines or other works as may be necessary, and may cause such sewers to communicate with, and be emptied into, such places as may be fit and necessary within Calcutta, and if necessary for the purpose of outfall or distribution of sewage without Calcutta, and may cause the sewage and refuse therefrom and from the town to be collected for sale, or for the improvement of land, or for incineration, or for any purpose whatsoever, but not so as to create a nuisance.

If a sewer is carried into, through or under any lands not belonging to the Corporation, the Commissioners shall make compensation to the owner thereof for any damage sustained by him by reason of such sewer being so carried into, through or under his land. In case of dispute, the amount of compensation payable by the Commissioners shall be determined in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Bed of stream receiving sewage to be cleared.

274. When the contents of any sewer or drain, or any other flow of filth or refuse, are discharged into any river or stream in the bed or channel of which the quantity of water at any season of the year is so much diminished, by natural or artificial causes, as to be insufficient to keep such channel clean or clear, the Commissioners, with the sanction of the Local Government, may make such alteration in the bed of such river or stream as may prevent such sewer and drain-water from spreading over the surface of such bed, or from accumulating and stagnating in parts thereof to the injury of health or the annoyance of the surrounding population.

Unauthorized drains leading into public sewers may be demolished.

275. If any person, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners, or makes such drain, or carries out such alterations, with materials not approved of by the Commissioners, the Commissioners may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit;

and the expenses thereby incurred shall be paid by the person making or altering such branch drain.

Penalty for altering or making unauthorized drains leading into public sewers.

276. Whoever, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners by this Act, shall be liable to a fine not exceeding Rs. 200.

Commissioners empowered to make drains from houses which are not properly drained.

277. If any house or land within one hundred feet of a public sewer or surface drain fit for use, or of some tidal river or other place at which the Commis-

sioners are empowered to empty their sewers, be at any time not drained to the satisfaction of the Commissioners by sufficient surface drains or pipes communicating with some sewer, surface drain, tidal river, or other place as aforesaid, the Commissioners may, if the owner neglects to do so within fifteen days after notice, construct or lay through or from such house or land, suitable drains of such materials, of such size and with such fall, as they shall think necessary for the complete draining of such house or land;

and the expenses thereby incurred shall be paid by the owner.

For the purpose of efficiently draining any house or land under this section, the Commissioners may require any court-yard, alley, or passage between two or more houses, to be paved with such materials and in such manner as may be approved of by them, and may require such paving to be kept in proper repair. They may also require the level of any such court-yard, alley or passage to be raised if necessary, for the efficient drainage thereof.

Commissioners may construct certain portions of drains under public drains and streets.

278. The Commissioners themselves may construct and lay down such portions of the drains mentioned in the last preceding section and sections two hundred and eighty-two and two hundred and eighty-three, as may be carried through or under any public drain, aqueduct, or street, and the expenses thereby incurred shall be paid by the owner.

Sewage and rain-water drains to be distinct.

279. Whenever it is provided in this Chapter that steps shall or may be taken for the effectual drainage of any premises, it shall be competent to the Commissioners to require that there shall be one drain for sewage and polluted water, and another and an entirely distinct drain for rain-water or unpolluted subsoil water or for both, each emptying into separate municipal drains or other suitable places.

Underground drains connected with the sewers to be made under a license.

280. It shall not be lawful for any person to make any underground drains in connection with the public sewers unless he shall hold a license from the Commissioners under such rules and regulations as the Commissioners may, from time to time, lay down, and which shall be printed on the back of the license.

Penalty.

Any person holding such license, who shall infringe or break any such rule or regulation, shall be liable to have his license cancelled, and he or any person making any underground drain in connection with the public sewers without a license shall be liable to a fine not exceeding Rs. 20.

Supervision of certain works.

281. The Commissioners may cause the work of laying underground drains to be supervised while in progress, and from time to time during their execution may order such reasonable alterations therein, additions thereto, and abandonment of part or parts thereof, as may to the Commissioners appear, on the fuller knowledge afforded by the opening of the ground, requisite to secure the complete and satisfactory execution of such works as aforesaid.

Group or block of houses may be drained by a combined operation.

282. If it appear to the Commissioners that a group or block of houses may be drained more economically or advantageously in combination than separately, and a sewer of sufficient size already exists, or is about to be constructed, within one hundred feet of any part of such group or block of houses, the Commissioners may cause such group or block of houses to be drained by a combined operation;

and the expenses thereby incurred shall be paid by the owners of such houses, or, in the case of bustee land, by the owners of the land in such proportions as shall to the Commissioners seem fit.

Not less than fifteen days before any work under this section is commenced, the Commissioners shall give notice to the owners of all the land or houses to be drained of the nature of the proposed work and an estimate of the expenses about to be incurred in respect thereof and the proportion payable by each owner.

Commissioners may require the owner of a drain to allow another to use it.

283. Whenever a drain belonging to one or more persons has been laid in any street or passage common to more than one house, and it is deemed desirable to drain any other premises into such drain, the Commissioners may require the owners of such drain to allow a connection therewith to be made on such terms as may seem to them equitable, and the owner or owners of the drain shall be entitled to refuse to allow the connection to be made until the terms prescribed have been accepted and any order for payment made by the Commissioners has been complied with.

Sewers in streets to be covered with traps.

284. All underground drains in streets (public or otherwise) shall be provided by the Commissioners or by the persons to whom they severally belong with proper traps or other coverings and means of ventilation, so as to prevent stench.

If the owner of any private sewer or underground drain shall, for ten days after notice given to him by the Commissioners, neglect or delay to provide proper traps or coverings and means of ventilation as aforesaid, the Commissioners may forthwith provide and apply the same;

and the expenses thereby incurred shall be paid by the owner.

Power of Commissioners to erect or affix to building, pipes for ventilation of sewers.

285. The Commissioners may erect on, or fix to, any house or wall such properly jointed pipes as they may deem necessary for the proper ventilation of the sewers belonging to them, and such pipes shall be carried to a height of not less than six feet above the highest part of the highest adjacent house, and erected so as not to occasion any nuisance or inconvenience to any house in the neighbourhood.

Branch drains, privies, cess-pools, stables, and cow-houses to be under the control of the Commissioners, and to be kept in good order by owners.

286. All branch drains, as well within as without the house or land to which they belong, and all privies, cess-pools, stables and cow-houses in Calcutta, shall be under the survey and control of the Commissioners as regards their site, material, dimensions and construction, and shall be altered, supplied with water, connected with a sewer, paved, repaired, kept in proper order, stopped up, or demolished, at the costs and charges

of the owner of the house or land to which the same belong, or for the use of which they are constructed or continued;

and if the owner of any house or land to which any such drain, privy, cess-pool, stable or cow-house belongs, neglect, during eight days after notice in writing, to execute the work in the manner required by the Commissioners, the Commissioners may cause the work to be executed in respect of such drain, privy, cess-pool, stable or cow-house;

and the expenses thereby incurred shall be paid by the owner.

Obstructions in private drains to be removed.

287. If any private drain is obstructed, the occupier of the premises in which such drain is situate shall, within six hours after receiving notice to do so from the Commissioners, cause the obstruction to be removed, and if he make default, the Commissioners may cause the necessary work to be done and the expenses thereby incurred shall be recoverable from such occupier.

Commissioners may alter any branch drain, privy, cess-pool, stable or cow-house made contrary to their order.

288. If any branch drain, privy, cess-pool, stable or cow-house be constructed contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or if any person, without the consent of the Commissioners, constructs, rebuilds or unstops any branch drain, privy, or cess-pool which has been ordered by them to be demolished or stopped up, or not to be made, or constructs or rebuilds any stable or cow-house which has been ordered by them to be demolished or not to be built, the Commissioners may cause such amendment or alteration to be made in any such branch drain, privy, cess-pool, stable or cow-house as they think fit;

and the expenses thereby incurred shall be paid by the person by whom such branch drain, privy, cess-pool, stable or cow-house was improperly constructed, rebuilt, or otherwise dealt with.

Penalty for persons making or altering drain, contrary to the orders of the Commissioners.

289. Whoever constructs any drain, privy, cess-pool, stable or cow-house after the commencement of this Act contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or, whoever without the consent of the Commissioners, constructs, rebuilds or unstops any drain, privy, or cess-pool which has been ordered by them not to be made or to be demolished or to be stopped up, shall be liable to a fine not exceeding Rs. 56.

Inspection of branch drains, privies, cess-pools, stables or cow-houses.

290. The Commissioners may inspect any branch drain, privy, cess-pool, stable or cow-house, and for that purpose, at any time between sunrise and sunset, after one hour's notice in writing to the occupier of the house or land to which such branch drain, privy, cess-pool, stable or cow-house is attached, may enter upon such house or land with such assistants and workmen as are necessary, and cause the ground to be opened where they may think fit, doing as little damage as may be;

and if, upon such inspection, it appears that such branch drain, privy, cess-pool, stable or cow-house is not in good order and condition, or that it has been constructed contrary to the provisions of this Act, the expenses of such inspection shall be paid by the person to whom such branch drain, privy, cess-pool, stable or cow-house may belong;

and if any branch drain is choked, or if any other defect connected with such branch drain which requires to be forthwith remedied is brought to light by such inspection, the Commissioners shall then and there clear out the branch drain, or remedy the defect;

but if the branch drain, privy, cess-pool, stable or cow-house be found to be in proper order and condition, and not to have been constructed in violation of the provisions of this Act, the Commissioners shall cause the ground to be closed and made good as soon as may be, and the expenses of opening and closing the ground shall be paid by the Commissioners.

Penalty for throwing rubbish or permitting any offensive matter or sewage to flow or be put into sewers.

291. or that any church or other place of public worship is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of, or underneath, the same, or in any churchyard or burial ground adjacent thereto;

and shall also certify that a fitting place for interment or burning (as the case may be) exists within a convenient distance and is available, no person shall, after a time (not less than two months) to be named in such certificate, bury or burn, or permit or suffer to be buried or burned, any corpse in, upon, within, or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate.

Power to license fuel shops at burning grounds.

384. The Commissioners shall, from time to time, grant licenses to persons applying for such, for the sale at burning grounds, of fuel and other articles used for the cremation of dead bodies, and shall in meeting prescribe a scale of rates for the sale of such articles; and any person not so licensed who shall, within three hundred yards of any such burning ground, sell or offer for sale any such fuel or other articles, shall be liable to a fine not exceeding Rs. 50.

The Commissioners shall not be bound to grant a fresh license to any person whose license may have been revoked, withdrawn, or cancelled under the provisions of this section.

PART IX.—*Of Nuisances.*

Nuisances which may be dealt with summarily.

385. The following nuisances shall be deemed to be nuisances liable to be dealt with summarily in manner provided by this Chapter:—

(*a*) Any premises in such a state as to be a nuisance or injurious to health:

(*b*) Any tank, well, ditch, gutter, watercourse, privy, urinal, cesspool, or drain so foul or in such a state as to be a nuisance or injurious to health:

(*c*) Any animal so kept as to be a nuisance or injurious to health:

(*d*) Any accumulation or deposit which is a nuisance or injurious to health:

(*e*) Any house or part of a house so overcrowded as to be dangerous or injurious to the health of the inmates:

(*f*) Any factory, workshop or workplace not kept in a cleanly state, or not ventilated in such a manner as to render harmless, as far as practicable, any gases, vapours, dust or other impurities generated in the course of the work carried on therein that are a nuisance or injurious to health, or so overcrowded while work is carried on as to be dangerous or injurious to the health of those employed therein:

(*g*) Any fireplace or furnace which does not, as far as practicable, consume the smoke arising from the combustible used therein, and which is used for working engines by steam, or in any mill, factory, dye-house, brewery, bake-house, or gas-work, or in any manufacturing or trade process whatsoever, and any chimney (not being the chimney of a private dwelling-house) sending forth black smoke in such quantity as to be a nuisance:

Provided—

1*st*.—That a penalty shall not be imposed on any person in respect of any accumulation or deposit necessary for the effectual carrying on of any business or manufacture, if it be proved to the satisfaction of the Magistrate that the accumulation or deposit has not been kept longer than is necessary for the purposes of the business or manufacture, and that the best available means have been taken for preventing injury thereby to the public health.

2*nd*.—That where a person is summoned before any Magistrate in respect of a nuisance arising from a fireplace or furnace which does not consume the smoke arising from the combustible used in such fireplace or furnace, the Magistrate shall hold that no nuisance is created within the meaning of this Act and dismiss the complaint, if he is satisfied that such fire-place or furnace was constructed before the passing of this Act, and in such manner as to consume as far as practicable, having regard to the nature of the manufacture or trade, all smoke arising therefrom, and that such fireplace or furnace has been carefully attended to by the person having the charge thereof.

Information of nuisances.

386. Information of any nuisance, referred to in the last preceding section, existing in Calcutta, may be given to the Commissioners by any person aggrieved thereby or by any officer of the Commissioners.

Commissioners to serve a notice in case of nuisance.

387. On the receipt of any information respecting the existence of a nuisance, the Commissioners shall, if satisfied of the existence of a nuisance, serve a notice on the person by whose act, default, or sufferance the nuisance arises or continues, or if such person cannot be found, on the owner or occupier of the premises on which the nuisance arises, requiring him to abate the same within a time to be specified in the notice, and to execute such works and do such things as may be necessary for that purpose: Provided—

1*st*.—That where the nuisance arises from the want or defective construction of any structural convenience, or where there is no occupier of the premises, notice under this section shall be served on the owner:

2*nd*.—That where the person causing the nuisance cannot be found, and it is clear that the nuisance does not arise or continue by the act, default or sufferance of the owner or occupier of the premises, the Commissioners may themselves abate the same without further order.

Where notice insufficient, Commissioners may prefer a complaint.

388. If the person on whom a notice to abate a nuisance has been served makes default in complying with any of the requisitions thereof within the time specified, or if the nuisance, although abated since the service of the notice, is, in the opinion of the Commissioners, likely to recur on the same premises, the Commissioners may cause a complaint relating to such nuisance to be made before a Magistrate, and such Magistrate shall thereupon issue a summons requiring the person on whom the notice was served to appear before him.

Magistrate's order.

389. If the Magistrate is satisfied that the alleged nuisance exists, or that, although abated, it is likely to recur on the same premises, the Magistrate shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise to abate the nuisance within a time specified in the order, and to do any works necessary for that purpose; or an order prohibiting the recurrence of the nuisance and directing the execution of any works necessary to prevent the recurrence; or an order both requiring abatement and prohibiting the recurrence of the nuisance.

The Magistrate may, by his order, impose a penalty not exceeding Rs. 50 on the person on whom the order is made.

Order when a building is unfit for habitation.

390. Where the nuisance proved to exist is such as to render a house or building, in the judgment of the Magistrate, unfit for

human habitation, the Magistrate may prohibit the using thereof for that purpose, until, in his judgment, the house or building is rendered fit for that purpose; and, on the Magistrate being satisfied that it has been rendered fit for that purpose, the Magistrate may determine his previous order by another declaring the house or building habitable, and from the date thereof such house or building may be let or inhabited.

Penalties for disobedience of orders.

391. Any person not obeying an order to comply with the requisition of the Commissioners or otherwise to abate the nuisance shall, if he fails to satisfy the Magistrate that he has used all due diligence to carry out such order, be liable to a penalty not exceeding Rs. 5 per diem during his default; and any person knowingly and wilfully acting contrary to an order of prohibition shall be liable to a penalty not exceeding Rs. 10 per diem during such contrary action; moreover, the Commissioners may enter the premises to which any order relates, and abate the nuisance, and do whatever may be necessary in execution of such order, and recover the expenses incurred by them from the person on whom the order is made.

This Part, as regards nuisances, not to affect rights under other law.

392. The provisions of this Part relating to nuisances shall be deemed to be in addition to, and not to abridge or affect any right, remedy or proceeding under any other law for the time being in force:

Provided that no person shall be punished for the same offence both under the provisions of this Part and under any other law.

Payment of moneys due on old debentures by issue of fresh debentures.

406. The Commissioners in meeting may at any time, with the sanction of the Governor-General in Council, raise, by the issue of new debentures, any money that may be required to pay any moneys for the time being due on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

Establishment of reserve funds.

407. The Commissioners shall set aside quarterly out of their income, before making any disbursements in respect thereof,

such sum as may be required for the payment of the interest and instalments payable to the reserve funds which may fall due within the quarter on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

The instalments payable to the reserve funds shall be at the rate of one per cent per annum on the aggregate unpaid sum borrowed by the Commissioners after the first day of April 1881, and at the rate of two per cent. per

annum on the unpaid balance of all debenture loans contracted before that date.

Surplus to be invested.

408. The Commissioners shall apply the reserve set aside under the last preceding section so far as it is required or so far as it extends to repay such debenture loans issued by them as shall fall due in the course of the year and shall invest the surplus (if any) of the said sum, after repayment as aforesaid, or in case there has not been any amount due or paid in respect of such loans or debentures during the year, then they shall invest the whole of the said sum in Government securities, or in any securities guaranteed by Government, or in Calcutta municipal debentures, in the names of the Secretary to the Government of Bengal in the Financial Department and the Accountant-General of Bengal respectively for the time being, to be by them held as Trustees for the purpose of repaying at due date from time to time the several loans contracted or debentures issued by the Commissioners. And all moneys and securities now held by any Trustees for the Commissioners, for the purpose of paying off any sums borrowed by them, not being sums borrowed from the Secretary of State for India in Council, shall be held by them upon the trusts hereinbefore declared.

All interest accruing due to the Trustees shall also from time to time be invested by them in like manner and held upon the like trust:

Provided always that the accounts of the fund formed by the payments made at the rate of two per cent. per annum and the fund formed by the payments made at the rate of one per cent. per annum shall be kept separate and distinct, and each reserve fund shall only be applied to paying off the debentures on account of which the instalments are payable.

The Trustees shall from time to time, whenever any loans or debentures shall fall due by the Commissioners, realize the whole or a sufficient portion of the securities held by them as aforesaid on account of the reserve fund applicable to liquidate such loans or debentures and apply the sale proceeds thereof, so far as the same will extend, to satisfy such loans or debentures. The Trustees shall, at the end of every year, submit a statement to the Commissioners showing the amount which has been invested during the year under section four hundred and eight, and setting forth the date of the last investment made previous thereto, and also the aggregate amount of the securities then in their hands, and the aggregate amount which has up to the date thereof been paid off in respect of the said debentures and loans.

The total sum borrowed by the Commissioners by way of debenture loans under this or any preceding Act shall not exceed such an amount that the sum payable thereon annually by way of interest and as instalments due to the reserve funds shall be more than ten per cent. on the annual valuation of Calcutta.

Commissioners may consolidate their loans.

411. Nothing in this Chapter shall be construed to prevent the Commissioners in meeting from inviting tenders at any time for a new loan to be called the "Municipal Consolidated Loan" on such terms as may be approved by the Governor-General in Council, and also inviting holders of municipal debentures to exchange their debentures for such Municipal Consolidated Loan stock at such rates as the Commissioners may consider fair and the Governor-General in Council may approve. The scrip of such stock shall be in such form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may prescribe. The Commissioners shall repay such Consolidated Loan by annual payments at a rate of not less than one-sixtieth of the unpaid balance in each year in lieu of contributing to a reserve fund under section four hundred and seven, and the stock to be paid off shall be purchased in the open market; and the provisions of section four hundred and seven shall apply to the sums necessary to make such annual payment:

Provided that, if during any year no stock is obtainable in the open market at, or below, its par value, it shall not be obligatory on the Commissioners to make repayment until such stock is obtainable in the open market at, or below, its par value.

(4). A separate local license shall be requisite for each separate place of business. Provided that no separate license shall be necessary for adjacent premises forming one place of business, or for yards, godowns or factories auxiliary to a place of business, but in such cases the valuation of all the premises, yards or godowns shall be computed in determining the class under which the license must be taken out.

(5). When any person practises a profession, trade or calling for which a personal license should be taken out, and is also the owner or lessee of a place of business for which a local license should be taken out, he shall take out separate licenses, but one license will suffice if the place of business is auxiliary to his profession, trade or calling.

(6). When the owner or lessee of any place is liable to take out a license, the license should be taken out by the lessee, if there is any lessee; if not, by the owner.

(7). The liability of any person to take out a license, and the class under which he is liable, shall be determined in the following manner:—

(a)—Any person who has taken out a license for the preceding year or been fined under section ninety for not taking out a license during such year, shall be presumed to be liable and entitled to take out a license under the class in which he was then placed in the year for which the tax is being levied.

(b)—Any person who, in consequence of any change in his profession, trade, or calling, or place of business, or for any other reason, considers himself entitled to take out a license in a lower class than before, or to be altogether exempted, may present an application to that effect to the Commissioners at any time before the first day of July. If no application is made by that date he will be liable to take out a license as prescribed in clause (a).

The Commissioners shall pass orders on such application, and the license shall be taken out in accordance with such orders, unless appealed against under clause (e).

(c)—If the Commissioners consider that any person who has not taken out a license in the preceding year ought to take out a license, or that any person who has taken out a license for the preceding year but has not taken out a license for the current year ought to take out a license in a higher class or more than one license, they may serve him with a notice directing him to take out a license for the current year in such class as may seem to them proper.

(d)—If the Commissioners consider that any person who has taken out a license for the current year ought to have taken out a license in a higher class, they may serve him with a notice directing him to take out a license in such higher class the following year, and such person shall thereupon, unless such order is modified, be bound to take out a license in such higher class, clause (a) notwithstanding.

If a person is summoned for not taking out a license, and service of notice under clauses (c) and (d) is not proved, it shall be incumbent on the Commissioners to prove that the person summoned is liable to take out a license as well as the class under which he is liable.

(e)—Any person dissatisfied with the orders of the Commissioners under clause (b) or on whom a notice is served under clause (c) or clause (d) may appeal against the orders contained in it—

(1)—To a Bench consisting of the Chairman or Vice-Chairman and not less than three Commissioners, or

(2)—To a Court of Small Causes having jurisdiction in the place in which the profession, trade, or calling is said to be carried on.

(8). In case of an appeal to a Court of Small Causes under this Schedule, the said Court may follow the procedure laid down in sections four hundred and twenty-four and four hundred and twenty-five.

(f)—Such person shall, within fifteen days of the passing of the order, or of the receipt of the notice, deliver at the office of the Commissioners an application in writing, stating the grounds of appeal, and also informing the Commissioners whether he intends to appeal under clause (1) or clause (2).

No appeal shall lie unless the amount of the license as assessed has been deposited with the Commissioners.

The Commissioners may, if they think fit, extend the period of an appeal under clause (1).

(g)—The order of the Bench or Court, or, if no appeal is made, the order contained in the notice, shall be final.

(9). The Commissioners may at any time grant a license for any previous year for which no license has been taken out on payment of the amount of such license, but the production of such license shall not afford a valid defence if the licensee is prosecuted for failing to take out a license within the time required by this Act.

CUSTOM HOUSE REGULATIONS.

FINANCIAL DEPARTMENT—CUSTOMS.

Darjeeling, the 24th September 1888.

RESOLUTION.

BY a Resolution dated 27th March the Lieutenant-Governor appointed a Committee to consider and report upon certain points connected with existing Custom House Regulations, with the view of definitely settling questions which have for some years come up periodically for discussion between the representatives of the mercantile community and the Government. The principal matters referred to the Committee were those connected with—(1) Holidays, (2) Overtime charges, (3) General routine of Custom House business.

2. The Committee have now submitted their report. It represents the unanimous conclusions of the members, and the Lieutenant-Governor is glad that, by accepting its recommendations, he will be able to ratify a final settlement of the questions at issue, by which the reasonable requirements of the Commercial body and the servants of Government will be satisfied. His Honour is accordingly pleased to signify his approval of all the proposals contained in the report which is appended to this Resolution. The Board of Revenue will be requested to carry them into immediate effect. Their attention will be specially directed to the suggestion that the arrangements connected with the opening of the Custom House for one hour on those days in the Doorga Pooja holidays on which it has hitherto been closed, should not involve the attendance of Hindoo clerks.

The memorials of the officers of the Preventive Service, on which the Committee have reported, will be separately disposed of.

The Lieutenant-Governor tenders his thanks to the Hon'ble Mr. Steel and Mr. Wylie for their services on the Committee, and for the advice and assistance they have rendered to Government.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

WE, the Members of the Committee appointed under Government orders of the 27th March 1888 to advise upon certain questions connected with the administration of the Custom House and the Preventive Service, have the honour to submit the following report.

It has hitherto been the usage that the Custom House should not be opened on any gazetted holiday for any purpose, free of charge, except on certain days in the long holidays of the Doorga Poojas. This practice appears to us not to be suited to the requirements of the trade of Calcutta. We recommend that for the Custom House, as distinguished from the Preventive Department, Sundays, New Year's Day, Good Friday, the Queen's Birthday, and Christmas Day, should in future be held to be absolutely close holidays; but that on the week days for which the office is closed in the Doorga Poojas, and on all ordinary gazetted holidays, other than the days mentioned above, the Custom House should be opened free of charge for one hour, viz. from 11 A.M. to 12 noon, all work applied for up to 12 o'clock being carried through, provided that notice is given to the Assistant Collector before closing hours on the day previous, or if this be a holiday, 24 hours in advance, that it is required to have the office so opened. On such opening, vessels would be allowed to enter and clear on the import and export sides, and provisional bills-of-entry for free goods as well as shipping bills for free goods issued, but the treasury would, as in Bombay, remain closed. It is understood that arrangements can be made to carry out this in the Doorga Pooja holidays without obliging Hindoo clerks to attend. The above change will further not affect the opening of the Custom House as heretofore on such advertised days as may be fixed on in the Doorga Pooja holidays for the receipt of duty and complete transaction of Custom House business.

Hitherto, when the Custom House has been opened out of regular hours, it has been the practice to charge a fee of Rs. 32 for inward entry and clearance, and Rs. 32 for outward entry and clearance, *i.e.*, Rs. 16 for each operation. We now recommend that the fee be reduced to Rs. 16 per hour for all work required on the import side, and Rs. 16 per hour for all work required on the export side.

As regards the transhipment of goods, we recommend that in future dutiable transhipment goods which have once paid the transhipment fee should not be required to pay it over again when these are shut out and sent subsequently to another exporting vessel.

We also recommend that the Government having formerly admitted in respect of the jetties at Calcutta the principle of payment by Government of the fees to wharf officers for work done out of regulation hours, this concession should now be allowed in respect of such work when required from the wharf officers at the Petroleum Wharf of Budge-Budge. Hitherto the fee of Re. 1 per hour per shed has been taken from the importers requiring the work.

As regards the work, more especially connected with the Preventive Department, we recommend the following changes in practice :—

That in respect of work on boardship there should be no absolutely close holidays as formerly, but that every ship requiring to work on the 1st January, Good Friday, the Queen's Birthday, and Christmas Day, should pay a fee of Rs. 100 for the day, besides the ordinary fees for the number of preventive officers applied for. The Superintendent of the Preventive Service, having represented the hardship to him of having to work on these days, we recommend that he should be authorised to treat them as close holidays in respect of his own work.

That in future, instead of an officer being sent to each of the ships requiring to take in or discharge free cargo only on ordinary holidays, every divisional officer should remain on duty when any such ship has applied to work in his division, as though it were a working day, a single holiday fee of Rs. 5 being charged proportionately to the ships under his supervision which require to work in the manner above described.

In respect of salt vessels, we recommend—

That in future the practice as to unloading salt into cargo-boats should be made to conform to the Government rule, and that any boat that applies be allowed to receive salt up to 4½ P.M., the practice of allowing an interval of half an hour for lunch remaining unaltered.

That when a ship that has salt retained on board, but is not working salt, requires to have chipping or other necessary work done below, she should not in future have to pay for the second preventive officer to superintend this work, but that this officer should be supplied by Government.

That when a vessel discharging salt requires to take in at the same time free export cargo or ballast, this should be allowed without a third officer to look after the export cargo, unless the Superintendent of the Preventive Service on some special ground considers a third officer necessary for the protection of the revenue.

That the Board of Revenue should be moved to make arrangements for granting the endorsements on salt rowannahs and issuing the chalans required after the salt has been taken delivery of into boats on all ordinary holidays, including the Doorga Pooja.

Lastly, we suggest the advisability of a manual of the various Custom House Rules in connection with the work of the Preventive Service being prepared by the Superintendent for the use of those who may require it.

In respect of the memorials which have been submitted by certain members of the Preventive Service, we are of opinion that the complaints set forth in them are not real grievances, and we have therefore no recommendations to make.

The Commercial Members of the Committee desire to record their acknowledgment of the readiness with which Mr. Scobell Armstrong has met the wishes of the mercantile community in the course of this enquiry.

We have had before us a note submitted by the Collector of Customs in reply to the criticisms contained in the speech made by the late President of the Chamber of Commerce and published on the 1st March last, and we would suggest that the note be forwarded to the Chamber of Commerce, as desired by the Collector.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average of means of the reading during the same period for the last ten years. The *humidity* of the atmosphere is expressed as percentages, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in each district deduced from the returns sent in by the sub-divisional stations for the period in question during the past 24 stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean for 6 days.

Calcutta, *the 25th September* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 21st OF SEPTEMBER 1888.

AT the close of the previous week a cyclonic storm which had formed probably in the Gulf of Siam was advancing in a north-westerly direction, and on Friday morning the 14th, the storm centre was crossing Pegu to the west of Rangoon, or probably near Bassein. The storm was one of considerable intensity, and very low pressure was reported at Diamond Island and Bassein on this day, together with a gale of wind to the east and south of the storm area. During the 24 hours from 8 A.M. on Friday, the 14th, to 8 A.M. on the 15th, the storm continued its very rapid north-westerly advance, and on the latter date the storm centre was nearly midway between the Arakan and Orissa coasts, or about in latitude 19°N. and longitude 91°E. The storm on this day was evidently rather severe, as strong winds were blowing in its rear, and the cyclonic circulation accompanying the storm affected the wind directions over the whole province. During this day and the following night the rapidity of the advance of the storm appears to have increased, and it struck the Orissa coast close to False Point, and slightly to the south of it at about 3 A.M. on the 16th. The velocity of advance of the storm was so great that probably as it neared the land it was travelling at about 20 miles an hour. The storm as it reached the land was a decidedly intense one, and at False Point a barometric pressure of about 28·8 inches was reported, while winds are said to have been of hurricane force. It was therefore evident that the storm was quite sufficiently intense to have raised a storm-wave at its centre.

Directly the storm left the South Burma coast, travelling in a westerly direction, the ports round the head of the Bay and along the west coast were warned of the existence and probable line of advance of the storm, and No. 1 storm signal was hoisted in the river Hooghly and in the port of Calcutta. On the morning of the 15th, when the storm had reached the centre of the Bay, No. 8 signal was hoisted at the stations in the Hooghly, denoting that the storm would probably pass between False Point and Saugor Island, and the Orissa ports and those on the Madras coast from Cocanada northwards were advised of the further advance of the storm, the usual warning signals being hoisted on the Orissa coast. Again during the evening of the 15th, as the storm advanced rapidly towards the land, the danger signals were ordered to be hoisted at the stations on the Orissa coast.

At 8 A.M. of the 16th, the centre of the storm was to the west of Cuttack, and following in its rear a severe south-westerly and south-easterly gale set in across the Orissa coast and in the north-west angle of the Bay, and some excessively high wind velocities were recorded during the early part of the 16th, Pooree reporting an hourly wind velocity of 54 miles, while at False Point the anemometer was blown away; but at about 3 P.M. of this day, as the stormy weather was moderating, the storm signals were ordered to be lowered. In the Hooghly, therefore, the storm signals were hoisted for about 54 hours continuously. With the advance of the storm inland very heavy rain set in over Orissa, and moderate rain generally over the remainder of the province. Thus on the 16th Khurdah reported 6·53 inches, False Point 4·46 inches, and Gop on the 15th, 5·40 inches of rain.

The storm then advanced almost due westwards, and on the 17th the centre was a little to the east of Nagpur, and the storm itself occupied the greater part of the Central Provinces. On the 18th the storm centre had advanced to about fifty miles north-west of Nagpur, and on the 19th it had advanced into Bundelkund, South-East Rajputana, and the eastern districts of Central India, and the centre was midway between Saugor and Jhansi. On the 20th the storm had apparently advanced northwards into the western districts of the North-West Provinces and the South-East of the Punjab, and it then continued to pass northwards, advancing across the Simla and Mussoorie Hills, where it broke up apparently on the evening of the 20th or the morning of the 21st. This storm had therefore a life history of certainly nine days, and the length of its path was probably at least about 2,100 miles, but as no trace of its existence before nearing Tavoy can be obtained, it may be that its path was even larger than this. In certain respects the storm is one of the most remarkable of those on record in Indian meteorology, as there is apparently no instance of any previous storm having originated in Siam or the Gulf of Siam, and having crossed the whole of the Bay of Bengal, and then having travelled through a considerable part of Northern India.

As previously stated, the storm brought up heavy rain to the districts through which it passed, and following in its rear a rather strong advance of monsoon winds swept over the whole of Northern India, giving general rain in Bengal for several days in the week.

Pressure.—The pressure variations during the earlier part of the week were entirely dependent on the passage of the cyclonic storm, but with its disappearance inland pressure rose in Bengal with great rapidity, and the mean pressure for the week has been rather largely above the normal. The usual excess in the mean pressure has been about 0·07 inch, but at the stations in Orissa the average for the week has been either normal or slightly below it. In Assam an excess pressure of about 0·05 inch is recorded.

Temperature.—The mean temperature for the province for the week has been 0·5° in defect of the normal. In East and North Bengal indeed slight excess pressures are recorded, while the largest defects are in North Behar and Chutia Nagpur, where they amount to from one to two degrees. In Assam an excess temperature of 1·5° has been recorded.

Rainfall—Has been heaviest in Orissa and the south-western districts generally and lightest in Behar. In Orissa the very heavy general fall of 4·90 inches is recorded,

which is no less than 2·23 inches in excess of the normal amount. In South-West Bengal an average fall of 2·15 inches is reported, or about two-thirds of an inch in excess of the normal; in East and North Bengal the falls have averaged about two inches, or slightly less than the usual amounts; while over the remainder of the province the falls have ranged from about an inch to an inch and a quarter, and have also been slightly less than the normal, but the defects in no case are very large.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 21st of September 1888 :—

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.
